

100Mbps Multimode Built-in Fiber Optic Transceiver

Overview

A 100BASE FX SFP is a 100Mbps Fast Ethernet optical transceiver designed to transmit data over multimode fiber using the 100BASE-FX standard. While Gigabit and higher-speed optics dominate modern data centers, many control systems, surveillance networks, transportation infrastructure, and 100 Mb/s Fiber Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. These models can use fibres with a core of either 50 or 62. Featuring an LC style connector, it supports 100BaseFX Ethernet over multimode fiber for distances up to 2 kilometers, providing a reliable fiber optic connection. HMS strives to minimize the climate impact in our own. The FS® 100GBASE Quad Small Form-Factor Pluggable (QSFP28) portfolio offers customers a wide variety of high-density and low-power 100 Gigabit Ethernet connectivity options for data center, high-performance computing networks, enterprise core and distribution layers, and service provider.
