

24-core trunk optical cable splicing solution

Overview

The 24 Cores Termination Box is a reliable and cost-effective solution for fiber optic cable splicing and termination. This blog explores the benefits and applications of the 24 core fiber optic splice closure, highlighting its importance in meeting the. Telhwa's 24-core mini horizontal fiber optic splice closure offers high-density, IP68-rated protection for reliable splicing. Compliant with IEC, TIA/EIA & RoHS standards. Request a quote or download specs. Equipped with color-coded core labels (1-24 cores corresponding to the color spectrum), it can clearly distinguish. Features

- RoHS compliant
- Can be used in through, branch or mid span splice locations
- Suitable for aerial, underground duct or direct burial applications
- Great mechanical performance
- Great resisting aging performance
- High air-proof, damp-proof and resisting, lightning strike performance
- Can be place.

The main business includes optical fiber trunk, optical fiber home, machine room wiring, data center wiring, network wiring and other solutions; It also provides communication equipment, such as optical fiber cables, copper cables, ODF,DDF, MDF cabling components, ODN components, service cabinets. The 24 Cores Termination Box is a reliable and cost-effective solution for fiber optic cable splicing and termination. High-strength PC and ABS plastic construction for.
