

3-in-1 48-core optical distribution box

Overview

The HTB8048 Fiber Optic Terminal Box is a versatile, high-capacity termination solution for FTTx applications, offering secure fiber splicing, distribution, and cable management. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. Welding. 48 Port Fiber Distribution Box provides 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports. The tray fixing on the box is clip design, no need to use special tool to take off the tray, only by hand. The upwards is the adapter panel for distribution, maximum capacity is 18. Dawnergy's fiber optic distribution boxes are widely used as a termination point for the feeder cable to connect with the drop cable in the FTTx communication network system. Built with an IP65-rated enclosure, this terminal box is designed to withstand harsh environments, making it suitable. 48 Core Distribution Box-Fiber Optic Distribution Box-Optical Passive Products-Products-PLC Splitter,Fiber Optical Receiver,Fiber Optical Distribution Box HANGZHOU DAYTAI NETWORK TECHNOLOGIES CO.
