

380V Level 3 Power Distribution Box

Overview

It serves as the central hub for receiving and distributing electrical energy in low-voltage systems up to 380V. Designed for power plants, substations, industrial enterprises, and commercial buildings, the XL-21 provides robust control, protection, and monitoring for power and. SP-XL low-voltage power distribution cabinet is suitable for three-phase three-wire, three-phase four-wire, three-phase five-wire system of 400V and below, and is used for power lighting distribution. It has the characteristics of flexible power distribution scheme, convenient combination, strong. The Fullerto XL-21 series is an indoor, floor-standing power distribution cabinet engineered for excellence. It is also fitted with. How to Choose a Site Level 3 Distribution Box [Purchase Notes](#). Jiangsu Dechun Power Electric Co. Established in 2017, Dongguan Anchang Building Facilities Co. is a comprehensive building materials supplier integrating research and development, production, sales and service.
