

400kW Distribution Box Specifications

Overview

This 400kVA PDU features a 480V input, 400/208V output aluminum transformer and Square D I-Line Panel Board. These user-selectable options are factory-assembled and tested, to streamline your installation experience: output voltage and subfeed breakers. Refer to the following table for the recommended upstream OCPD model or use an upstream OCPD that is rated to comply with the maximum current setting specified. Failure to follow these instructions will. 400kW - 2MW+ Liquid-Liquid Heat Exchanger for Liquid Cooled & Hybrid Data Center Architectures Engineered to accelerate digital transformation and meet the needs of next-generation CPUs and GPUs, Airedale by Modine's coolant distribution unit (CDU) enables liquid cooling in high-density IT. The Schneider Electric 400 & 500kVA Power Distribution Units (PDU) are reliable, scalable, and intelligent high-density power distribution units ideal for large data centers. They offer flexible configuration, with factory installed and tested Square D breaker panels configured to meet the unique. er, or with bo ht 1630 mm x 1020 torer and is subject to possibThis product can only be hired by businesses with a customer number. They also exclude costs for the following: maintenance, fuel, oil, wear and tear, transport, cleaning, accessories and various attachments, any environmental taxes and surcharges for damage waiver and.
