

40ge optical module standard

Overview

The QSFP+ pluggable interface is an industry standard - Multisource Agreement (MSA) for pluggable 40 Gigabit Ethernet Optics. It can connect a 40GE port to four 10GE ports using a 1-to-4 cable. com with best prices and fast worldwide shipping. These standard. FTL4E1QM1C QSFP+ transceiver modules are compliant with the QSFP+ MSA, IEEE 802. 3bm 40GBASE-ER42and OTU3 requirements specified in ITU-T Recommendation G. 6953as adapted to a 40 km interface. QSFP PSM LR4 is an assembly of 4 full-duplex. The 40G transceiver module portfolio offersc ustomers awide variety of high-density and low-power 40Gigabit Ethernet connectivity options for datacenter, high-performance computing networks, enterprise core and distribution layers, and service provider applications.
