

6a1b Fiber Optic Patch Cord

Overview

These single mode fiber optic patch cables are FC/APC terminated on both ends, making them ideal for systems that are sensitive to back reflections. The narrow key connector utilizes a ferrule that has an 8° angle polished tip, ensuring typical return loss of 60 dB. They are typically used to cross-connect patch panel to patch panel and to interconnect patch panels to optical equipment. At ZION Communication, we design and manufacture a full range of fiber patch cords for: This guide will help you quickly understand the main types of. OCC's shielded and unshielded Category 6A patch cords are constructed with F/UTP cable for superior alien crosstalk performance. Patch cords are 100% tested and compliant with ISO and TIA Category 6A performance specifications. OCC channel solutions that utilize OCC patch cords guarantee support.
