

Applicable to distribution box sockets

Overview

The international standard IEC 60309 applies to plugs, receptacles, connectors and appliance couplers that are mainly used in industrial sectors (rated voltage up to 1.000 V, 500 Hz and rated current to 125 A). STAHL's socket distributors for wall mounting are the ideal choice when mobile electrical equipment has to be temporarily used in production areas with clean room classification. The wide variety of different combinations allows the socket distributors to be individually configured for your. A distribution box (often referred to as a distribution board or panel board) and its preceding meter sockets are far more than just metal or plastic cabinets. Compared to ordinary household plugs and sockets, they typically have higher power and current capacities, and their designs take into. The Group's environmental commitment is centred on 3 guiding lines: taking on board environmental management in the running of its industrial sites, reducing the environmental impact of its products by eco-design, providing environmentally friendly solutions that contribute to energy savings. Type. GARO's multiple socket for 1- and 3-phase operation.
