What is a display cabinet, and what is it used for?

A display cabinet is a cabinet with glass doors or glass panels that allows you to store and display items at the same time. The name comes from the French word vitrine. In environments, the right display cabinet turns objects into stories. Common types include freestanding display showcases—ideal for large items or 360° viewing; built-in wall cases for long-term or backdrop displays; tabletop vitrines and full-height glass cabinets for close inspecti. more In. Usage Points: Priority should be given to matching scenario requirements when selecting—for example, the catering industry (especially for Gelato and cake displays) needs to balance light transmittance and low-temperature resistance; ultra-clear tempered glass (temperature resistance -40°C-280°C. Display cabinets provide the unique benefit of letting you display something without necessarily leaving it fully exposed and can often have some aesthetic value for the entire room, especially if you use a piece of antique furniture.
