

Belize National Standard

Overview

Belize National Standard: Specification for Labelling – General Principles. It is applicable to all goods which are customarily labeled in the course of trade except where more specific requirements are prescribed elsewhere. All locally manufactured goods and imported goods must adhere to minimum standards for products to be legally traded and sold on the Belize. The present document contains certification requirements for certifying forest operations in Belize, developed in accordance with FSC's normative document for the development Forest Stewardship Standards. Revisions of Forest Stewardship Standards are ongoing, and all existing standards will be. Good Regulatory Practice (GRP) are internationally recognised processes, systems, tools and methods for improving the quality of regulations. GRP systematically implements public consultation and stakeholder engagement as well as impact analysis of Government proposals, before they are implemented. “The Belize Bureau of Standards improving and enhancing the economy and the quality of life for all Belizeans by promoting the use of quality management systems and international standards. Established in 1992, the Bureau is under the Ministry of Economic Development, Petroleum, Investment, Trade and Commerce.
