

Cable Tray Quick Start Course

Overview

The Wire and Cable Management training course identifies how to properly use conduit and cable trays to ensure the necessary neat and workmanlike appearance required by the NEC. 0:31 What is cable tray?

1:00 Applications 1:10 Oil and Gas - Upstream 1:34 Oil and Gas - Downstream 1:50 Oil and Gas - Midstream 2:11 Manufacturing facilities 2:19 Distribution centers 2:26. This animated video demonstrates how cable tray systems are installed in industrial and commercial projects. Ideal for electrical engineers, technicians, and construction teams. After completing this course, participants should be able to identify the types of sections and the types of fittings used in cable tray assemblies, explain how cable tray is. Whether you're building a commercial setup or upgrading an industrial plant, proper cable tray installation ensures neat wiring, safe access, and easy maintenance. But before you lay the first tray or clamp down a single cable, you need a solid plan. This guide breaks down the process step by step.
