

Cable tray 3 meters high

Overview

This 3-metre ladder tray features a 300mm width and 100mm depth, offering reliable support for heavy cable loads. Constructed from hot dipped galvanised steel, this unit is compliant with BS-EN-61537:2007, ensuring long-term durability in both internal and external. The Metsec 300mm cable ladder is a heavy-duty containment solution designed for high-capacity installations in commercial and industrial environments. Constructed from hot dipped. Cable trays and ladders are standardly produced in 3-meter lengths but can also be manufactured in 6-meter lengths if desired. Fully automatic production lines using the Roll Forming method ensure precision manufacturing. The channel type trays are manufactured in various widths & heights of aluminum or hot dipped galvanized carbon steel, pre-galvanized carbon steel, Stainless steel 304 and 316L, with ventilated or solid bottom. The. The BFR Series welded steel wire trunking is the ideal solution in terms of cost-effectiveness and installation flexibility, thanks to the exceptional simplicity with which they can be adapted to routing needs, without any need for special accessories or tools. Available in 3 standard designs of cable tray to suit individual applications.
