

# Calibrating an optical communication tester in the Bahamas

## Overview

The Bahamas Maritime Authority has clarified that “suitable means of calibration” referred to in Regulation 7, may include on board calibration using the instrument manufacturer's instructions (and calibration equipment if provided) or calibration ashore. Ensure your light-based measurements meet the highest standards of optical accuracy. From manufacturing floors to research labs, our optical calibration services guarantee that your. At Lightcommunication Company, we specialize in comprehensive fiber optic solutions, ensuring superior connectivity through expert services in installation, splicing, and network maintenance. Whether you're dealing with laser sources, LED sources, optical power sensors, or optical spectrum analyzers, we've got you covered. Discover our wide range of electronic calibration services, tools, and equipment by contacting us today.
