

Chilean Hot-swappable Power Distribution Unit Rack-Mounted

Overview

The CHx200 is a rack-based CDU, built for the needs of today's most demanding HPC and enterprise server requirements. Capable of managing 200 kW of heat load in a remarkably small 4U of space, this system provides cooling for up to 200 servers. The PX4 continues the Raritan legacy of delivering best-in-class intelligence while introducing a new set of industry-proven hardware and outlet technology. This new feature set supports rapid deployment in changing environments while providing high density, flexibility, and reliability to drive. Eaton's rackmount PDU offering provides you with the power density and flexibility you require regardless of whether you're looking for PDUs for server racks or switching environments. From basic to advanced, switched PDUs, Eaton as rackmount PDUs for everything from small network closets to the. Discover CHx2000, CoolIT's highest-performing CDU. Rock Solid Uptime, No Compromises. From the ground up, PX Intelligent PDUs are architected with components, features, and failsafes that ensure the most reliable. Every rPDU (Rack Power Distribution Unit) released by Delta is a result of our total commitment to engineering the most efficient and reliable power solutions on the market. Data centers. Eaton offers Hot-Swap PDUs, which make any UPS hot-swappable, as well as Hot-Swappable Modular UPS Systems, which integrate a detachable Hot-Swap PDU.
