

Construction site electrical distribution box without a door

Overview

Temporary switchboard assemblies used for low voltage power distribution to endure the harsh conditions of construction sites or outdoor events are mostly called Mobile Distribution Assemblies. It must protect people, protect equipment, reduce installation chaos, and make emergency control simple. That is why E-abel designs temporary distribution boxes as complete outdoor power systems, not just painted. BOSECKER construction site power distributors are designed and manufactured in accordance with the manufacturer standard IEC 61439 and user standard IEC 60364. The robust sheet steel housing has been. Portable construction box allows for easy transportation and setup across different site locations. The panels are made in a sturdy and handy two-component technopolymer cabinet with a fire-resistant backrest, which allows them to be stored and reused in.
