

Dedicated connector for explosion-proof distribution boxes

Overview

A dedicated connector equalizes the potential between the PE/PA bar and the DIN rail (no extra wiring is required). Standard solution for enclosures with metal cable glands. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. With a wide range of enclosure materials, sizes, ambient temperature ranges, and customizable configurations, these solutions can. These explosion proof junction boxes / terminal boxes, plugs, sockets & connectors are for use in explosive atmospheres in compliance with the ATEX 94/9/EC Directive and IECNorstat offers an extensive line of DIN Valve Connectors, Circular M8, M12, M23, 7/8" Connectors as well as an impressive array of Specialty Connectors in a multitude of styles, sizes, and options. DIN Valve Connectors are available as field wire-able versions or as molded cable assemblies with all. Glenair is a qualified manufacturer of ATEX Approved (European Union), IECEx Approved (International Markets) and UL Certified (North America) connectors for potential explosive zone use -- all built IAW IECEx / ATEX and UL standards.
