

Denmark Multimode Fiber

Overview

This fiber is a bend-insensitive, graded-index multimode fiber designed for transmission speeds of 1 Gbps but also appropriate for transmission speeds of up to 10 Gb/s. We offer a huge selection of fiber cables and adapters that help to ensure dependable fiber network connections. Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations. Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode fiber has a fairly large core diameter that enables multiple light modes to be. Fiberby is a specialized service provider offering high-speed fiber optic internet solutions for housing networks in the Copenhagen area. Mouser offers inventory, pricing, & datasheets for Multimode Fibre Optic Cables.
