

E2000 Fiber Optic Distribution Frame

Overview

OPTICOM® E2000 fibre optic products provide a flexible and modular system with components for fibre termination, splicing, and patching in all applications with superior patch field access, easy moves-adds-changes, and simple installation. The E2000 fibre optic products offer both pre-loaded and. The E-2000® connector, invented by DIAMOND, delivers unmatched reliability and precision in fiber-optic interconnects - making it the ideal choice for critical transmission points across telecom, industrial, medical, and more applications. By checking this box I confirm that I have read the Privacy. Techlogiks 19"rack mount optical fiber distribution frame is available from 12 to 144 fiber capacity and suitable for different types of fiber adaptors like LC, SC, ST, FC, E2000, MTRJ. Diamond has responded to this challenge and expanded the E-2000TM connector system to address these igin, etc. The thumb-latch and frame a ava ble in eight di nct c rs: ge (Wh in multiple-service patch facilities. The E-2000TM system. Compact DIAMOND solutions for wall mounting, outdoor locations and decentralised fibre distribution. Plus all connectors — E2000 adapters, pigtail sets — for field installation and complete system integration. It's 19"standard structure, rack mounted, suitable for 19" frame rack mount.
