

Ethiopia Internet and Big Data Center

Overview

Ethiopia is quietly building the digital backbone it has long lacked. They are changing how governments, banks, telcos, and tech firms host and move data. This report is part of a series of market briefs developed by Xalam Analytics at the behest of Digital Investment Facility (DIF) under the Data Governance in Africa Initiative, on the data center market opportunity in sub-Saharan Africa (“SSA”). africa group limited (Wingu) today unveiled its highly anticipated main data center facility during an exclusive launch event held at the ICT Park in Addis Ababa Ethiopia. They are also reshaping how the country. An Ethiopian delegation, including policy makers from the Ministry of Innovation and Technology (MINT) and the Ethiopian Communications Authority (ECA), visited Korea on July 10-14, 2023, to learn about the country's vibrant digital economy and green data centers. The data center is located in the Ethio ICT park, built on a 161,500 sq ft (15,000 sq m) plot of land, and will offer a capacity of 10MW across 800 racks when fully operational.
