

Explosion-proof distribution box 4P

Overview

Explosion proof distribution box 4 way for 24V power in hazardous zones. Built with a durable GRP enclosure with handle and IP66 protection, ideal for powering tools and lights in Zone 1, Zone 2, Zone 21, and Zone 22 environments Technical Datasheet: 16A 24V 4WAY ATEX DB ADD TO. Warom Explosion proof Distribution Box (Ex d IIB+H2) in 316 stainless steel. Available with a wide range of built in components. Enclosure: 316 stainless steel. Equipped with a specialised hinge structure which can prevent damage to the flameproof joints when opening and closing the box; greatly. Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc. With a wide range of enclosure materials, sizes, ambient temperature ranges, and customizable configurations, these solutions can. These are available in a range of materials including Stainless Steel, GRP & Sheet Steel from IP42 (Indoor) to IP 66 (Outdoor) Applications. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times.
