

# FC140 Interface

## Overview

They are formed by one FCS100 sensor and one FCT transmitter: •SITRANS FC120 is the combination of the FCS100 sensor and the FCT020 transmitter •SITRANS FC140 is the combination of the FCS100 sensor and the FCT040 transmitter Features: •Compact dual curved alloy 22 measuring tubes. They are formed by one FCS100 sensor and one FCT transmitter: •SITRANS FC120 is the combination of the FCS100 sensor and the FCT020 transmitter •SITRANS FC140 is the combination of the FCS100 sensor and the FCT040 transmitter Features: •Compact dual curved alloy 22 measuring tubes. Overview The flowmeter systems of the SITRANS FC100 series are the precision Coriolis multi-parameter flowmeter for low flow applications. We have 1 Siemens SITRANS FC140 manual available for free PDF download: Operating Instructions Manual Siemens SITRANS FC140 Pdf User Manuals. Items 1 through 16 are mandatory entries and must be specified at the time of ordering. The new SITRANS FC extensive portfolio of Coriolis flow meters provide high performance multi-parameter measurements for all fluids and all industries. An overview of your request can be found here: In order to protect technical infrastructures, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art IT security.
