

Fiber Optic Communication Converter txd

Overview

Fiber optic converter with LC duplex connection (1310 nm) for 100Base-TX to singlemode fiber optics, DIN rail mountable, extended temperature range, redundant power supply, IECEx, ATEX, UL HazLoc, IEC 61850, IEEE 1613, DNV. FO media converters for Ethernet and fieldbus enable you to convert your copper interfaces to interference-free fiber optics without the need for complex surge protection, shielding, and equipotential bonding measures. Moxa's Ethernet to Fiber media converters feature innovative remote management, industrial-grade reliability. CommFront offers a range of rugged, industrial-grade Ethernet / Serial to Fiber Optic media converters. Our fiber optic converters extend Ethernet and serial (RS232 / RS485 / RS422 / TTL) signals with many options - single-mode and multi-mode; ST, SC, FC, and SFP connectors; point-to-point and. Swapped Fibers (Dual-Fiber): Connecting the TX of one converter to the TX of the other, and the RX to the RX, will prevent communication. Featuring high and low speeds and field-changeable interfaces. Applications include satellite downlinks, DSUs, various Crypto devices, Channel Banks, SCADA and Process Control Networks. Products include Ethernet, Gigabit Ethernet, 10Gb/s, RS232, RS484, RS422, T1, E1, DS3 over fiber.
