

Fiber grating cable length 1 meter

Overview

The minimum fiber patch cable length is 1 m for both single-mode and polarization-maintaining fibers. Mouser offers inventory, pricing, & datasheets for 1 m Fiber Optic Cable Assemblies. If you need a smaller cable length please contact us and we can discuss the issue. In Fiber Optic Communication Patch Cables, we have a 100 different varieties of Singlemode and Multimode cables that can be bought anywhere from 1 m to 15 m in length. Singlemode 1 to 50 Meter lengths. We at Cables For. Our shape sensor module consists of a length (>1 m) of twisted multicore optical fiber with fiber Bragg gratings inscribed along its length. Our fiber has a compact 200 micron coated diameter, a twist of 50 turns per meter and grating reflectivities greater than 0.
