

Fiber optic splice box with 1 input and 4 outputs

Overview

The FOTB-X04 termination box is a compact solution for small-scale fiber distribution, featuring 1 input port for cables up to 8 mm and 4 output ports for drop cables up to 3 mm in diameter. Made from durable polycarbonate (PC) and ABS materials, these wall-mountable enclosures deliver excellent. Splice boxes ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes for both the DIN rail and 19" mounting provide ample interior space for the secure connection of fiber optics. High quality components ensure a secure and stable operation. These boxes are well suited as optical cable splice collection points for DAS (Distributed Antenna Systems), MTU (Multi-Tenant Unit) commercial business applications, and MDU (Multi-Dwelling Unit).
