

Field Fiber Optic Cable Traction Machine

Overview

Optical cable traction machines are widely used in optical fiber communication, power, and municipal engineering for cable laying and construction. They can lay up to 288-core optical cables in underground, overhead, or pipeline scenarios, with automatic pre-tension. Humanized design of machine appearance, easy to move and transport. The. With technology as the primary productivity, Clusterasia Corp offers an efficient, time-saving and labor-saving cable tractor that solves a major problem in cable construction. The cable tractor is suitable for the construction of cable buried pipelines. During the construction process, the machine. Timberland designs and builds a complete range of small and large pullers for fiber-optic applications, including truck- and pole-mounted models. For buyers seeking a reliable and powerful solution, the.
