

Guinea Remote Intelligent Power Distribution Cabinet Manufacturer

Overview

Chinese power distribution company DOHO Electric supports Guinea's gold mining industry with high-reliability, intelligent power solutions tailored for remote mining sites. Guinea, often called the “Mineral Treasure House of West Africa”, holds the world's largest bauxite reserves and is gaining global attention for its rich gold and diamond resources. As major international mining companies and new investors accelerate their gold mining projects in Guinea, one. Recently, the control cabinets, maintenance cabinets, operation cabinets and supporting spare parts independently produced by our company have been loaded onto ships and departed from domestic ports to Guinea, injecting the power of “Chinese Intelligent Manufacturing” into local infrastructure. IBS Technologies is your strategic partner in West Africa for the supply and installation of high-tech industrial equipment and critical infrastructure. It has the functions of monitoring the low-voltage side load and frequency of the distribution transformer, collecting power, and controlling the. Adopting a three-level architecture of "Main Power Distribution - Branch Power Distribution - Terminal Power Supply", the system integrates multi-level electrical protection (overload, short-circuit, leakage, etc. Some cabinets are equipped with dual-circuit redundant power supply and.
