HP Spectrometer

Overview

We have compiled a list of Spectrometers from the HP Spectroscopy website/catalog and made their products searchable by specification. Use the filters to narrow down on products based on your requirements. We deliver cutting-edge products to customers in academia and. HP-1700 Nir Spectrometer (380nm-1700nm) HP-1700 (infrared version) is specifically designed for measuring irradiance and wavelength from visible light to red light and infrared light bands, used for red light therapy, infrared night vision monitoring, infrared remote control emission tubes. Spectroscopy tools, detector solutions, and beamline instrumentation for the vacuum-ultraviolet (VUV), extreme-ultraviolet (XUV/EUV), and x-ray range. 5 inch touch screen, Real-time display of measurement parameters and curves, use convenient and fast. Aberration-corrected flat-field wavelength coverage spans 1nm to 200nm with extensive spectral bandwidths, e. The modular design matches a variety of.
