

HS Code for Optical Cable Equipment

Overview

The HS Code 8544 is the global standard for classifying insulated wires, cables, and fibre optics used in electrical and communication systems. Using a same classification system simplifies the customs process regardless of the country, and helps customs authority to determine appropriate tariff rates. Most. Optical fibre cables made up of individually sheathed fibres, whether or not containing electric conductors or fitted with connectors Packing cases, boxes, crates, drums and similar packings, of wood; cable-drums of wood; pallets, box pallets and other load boards, of wood; pallet collars of wood. The HS Code 90011000 refers to optical fibers, optical fiber bundles, and cables. These products are classified under this code and are different from those falling under HS Code 8544. Key updates include GCC 12-digit codes from Jan 1, US HTS mandates post-Aug 2025, and EU CN revisions.
