

Huawei to release optical modules in 2023

Overview

Richard Jin, President of Huawei's optical business product line, will release 3 new products and solutions, striding to 10Gbps and helping the development of end-to-end green all-optical network with all-optical home, 10 Gigabit ultra-wide and all-optical . Richard Jin, President of Huawei's optical business product line, will release 3 new products and solutions, striding to 10Gbps and helping the development of end-to-end green all-optical network with all-optical home, 10 Gigabit ultra-wide and all-optical . [Barcelona, Spain, March 2, 2023] During the Mobile World Congress 2023 (MWC 2023), Huawei and partners released the Technical & Application White Paper for All-Optical Campus Network, aiming to promote the application of all-optical networks in various industries and building an all-optical. In the future, with the emergence and popularity of new technologies and applications such as VR, AR, and 8K video, the "Gigabit Optical Network" needs to be upgraded to a ubiquitous 10 Gigabit connectivity. To promote the rapid spread of "Gigabit Optical Network" and support the future upgrade to. In June 2023, Huawei officially released the Intent-Driven All-Optical Connectivity Strategy and a series of blockbuster new products in Beijing. 5G, the theme of this press conference is "Optical Linking Everything, Building the Foundation of Computing Power Era", deeply analyzing the. LightCounting releases its May 2023 Optical Vendor Landscape Report LightCounting's Optical Vendor Landscape report provides a holistic analysis of the global communications industry, examining the business strategies of telecom service providers and cloud companies, their networking equipment. Evolving towards the 2030 optical communications network system and architecture is a key issue facing the optical communications industry and requires viable technical options for building future-oriented and novel optical communications network syst...
