

Indoor fiber optic cable relocation project in Italy

Overview

EXA Infrastructure and Ultranet have signed an agreement to construct a fully diverse, high-performance fibre route spanning approximately 175 km, between Milan and Genoa, an increasingly strategic landing point for subsea cables. In a significant development for Italy's digital infrastructure ambitions, KKR-backed telecommunications firm FiberCop is poised to take control of a major, EU-funded fiber optic network project that has encountered substantial delays. This move aims to revitalize the nation's broadband expansion. An initial tranche of €500 million has been signed to support the strengthening of the national FTTH grid. The project will build connectivity up to 5.8 million homes and businesses with speeds of up to 10 Gbps according to an open-access wholesale model. FiberCop and its smaller rival Open. FibreConnect, an independent operator that offers high-performance connectivity services for businesses in Italy's Industrial and Artisanal Areas, has signed a €50 million financing agreement with the European Investment Bank. By Elvira Pollina and Giuseppe Fonte MILAN/ROME (Reuters) - KKR-backed fibre optic telecoms firm FiberCop has told the Italian government it is ready to take over the work. We perform design, project management and installation of any type of fiber optic infrastructure, from minitrench excavation to the installation of switchboards and modular wells. Our technical staff is qualified for working at height and allows us to make piling, overhead lines and the cabling of.
