

Intelligent Fiber Separation Box

Overview

Engineered with premium PC+ABS materials, it combines fiber splicing, optical splitting, centralized storage, and cable management capabilities for streamlined network deployment. The integrated 1:8 PLC splitter eliminates external components, reducing installation complexity. This advanced fiber access termination box delivers comprehensive FTTx network infrastructure in a single, weatherproof enclosure. The 2LINE COB combines the function of a network distributor with the possibility of using. You can find fiber splice boxes and distribution boxes in the EFB-Elektronik online shop with a wide range of matching distributors, module racks, subracks and accessories. Pre-assembled and unasssembled splice boxes are available directly from stock. We work closely with the main players in the telecommunications market.
