

Kazakhstan Dust Explosion-proof and Corrosion-resistant Distribution Box

Overview

Explosion-proof boxes GERDA-KSA and GERDA-KSN are designed for connecting cables in DC and AC circuits in areas with hazardous gas or dust environments. Hazardous areas in indoor and outdoor installations in accordance with Ex-marking and GOST IEC 60079-14, which regulate the use of. WAROM has been building explosion-proof solutions since 1987, and that experience shows up in how the equipment handles real-world conditions. Getting the classification right determines. Crouse-Hinds' ECP series explosion-proof enclosures feature an optimized design and short lead times for OEMs. They are available in 40 standard sizes with optional holes and threaded openings for conduit and devices. They are listed for Class I. The implementation of the project for the production of Explosion Proof Equipment by cooperation between OEM brand and Sigma in the Republic of Kazakhstan will provide the market with high-quality products manufactured according to the IEC standards.
