

L21 Distribution Box

Overview

The Kydex® hybrid L21-30 Stringer Box gives customers a lighter-weight power distribution option with faster custom configuration potential. As a result, it works well for entertainment, event, and temporary power setups. Features: Enclosure: Aluminum and HDPE (marine grade) – Light weight and easily milled for one off configurations and fast. The D 3/1 three phase power distribution unit built by LM Tour Systems is designed for users who need a high density of standard duplex “Edison” outlets in a compact 2U enclosure fed from 30-amp three phase sources. 6 channel (12pcs) Edison socket. Each channel can max load 20A (each channel if you use one or 2pcs Edison socket. 100A 120/208 VAC, (1) Set of (5) 16 Series Cam-type, Single Pole Males (Inlets) to (5) NEMA L21-20 Locking Receptacles (Outlets), Pagoda™ 100A Pagoda™ portable power distribution box with CAM input and 5 NEMA L21-20 locking outputs. L21-30 power distribution with 400A cam lock input and out for thru, mixed with socapex, NEMA Edisons and 30 amp twist lock outputs, is very good to power supply for all electrical devices and equipments, it is convenient for the power cables combined into all in one power distro to supply the. Output: 3-way 110V Edison L21-30 input and output, 220V Dimensions: 420mm*142mm*H99. 5KG Display: With three-phase A. C direct-reading independent voltage meter display Body: Iron black spray-painted frosted process Control system: Each circuit is independently divided into 1P 20A, with.
