

Malaysia Fiber Optic Cable Undergrounding Project

Overview

KUCHING, Oct 10: A new 3,190-kilometre undersea cable system will be built under Budget 2026 to connect Sabah and Sarawak with Peninsular Malaysia, marking a major leap in closing the digital gap across the nation's three regions. SKR1M was established through a Public-Private. The Fourth MADANI Budget 2026, tabled by Prime Minister and Finance Minister Datuk Seri Anwar Ibrahim, outlines a total expenditure of RM470 billion, reflecting the government's continued commitment to national reform, social equity and sustainable growth. Prime Minister Datuk Seri Anwar Ibrahim said the MADANI Submarine. Arlington, VA – Today, the U. Trade and Development Agency awarded a feasibility study grant to Malaysia's Hexa Capital Consultancy (Hexa), to support development of the Malaysia-U. (MYUS) submarine fiber optic cable system. The MYUS cable will add cost-effective digital connectivity capacity. “This project will increase access to reliable and affordable digital services across Southeast Asia, including remote and underserved areas, while creating a secure communications link between the region and the United States,” said Enoch T.
