

# New Smart OTDR Overseas Warehouse

## Overview

On February 28, 2024, Alibaba's logistics giant Cainiao announced its cooperation with Spotter, a cross-border B2B trade distributor, to jointly develop an intelligent warehousing management system. ATLANTA, April 13, 2026 /PRNewswire/ -- From April 13 to 16, BangQi Technology, a global leader in AI-powered smart factories and unmanned warehouses, is participating in MODEX 2026, a premier global exhibition for material handling, logistics technology, and supply chain innovation. This cooperation aims to promote the internationalization process of Chinese brands and consolidate. KPMG LLP (KPMG) is helping federal agencies achieve their smart base visions using our customizable approach that includes components such as smart warehouse and smart depot. Smart warehouses use advanced technologies like automated storage and retrieval systems, connected devices, and artificial. Advanced tools are transforming overseas warehouse services, enhancing their efficiency. These innovative solutions are driving rapid growth in the global market, which was valued at \$14. It is projected to expand by 8. Overseas warehouse services for direct. By 2026, three forces will dominate warehouse strategy: The modern warehouse is no longer a static storage space but rather an intelligent control point.
