

New Zealand Active Optical Cable 1 6T

Overview

The hot pluggable cable offers bidirectional 1.6Tbps data transmission per cable. The signal integrity severely stressed under high-speed data transmission is enhanced via advanced. Delivering better signal integrity and optical engine performance Integrated engineering design and manufacturing technology co-development for cost-effective production Fine-tuned engineering and optical coupling ensures the 10% lower power than competitors adopting same BOM Committed 3~5 months. Credo's HiWire™ CLOS Active Electrical Cable (CLOS AEC) A thin, low-power 1.6T AEC specifically designed for in-rack applications replacing backplanes in Distributed, Disaggregated Chassis (DDC) implementations. Plug & Play CLOS AECs consume up to 50% less power than optical and take up to 75% less. Develop, Manufacture and Support the Most Comprehensive Portfolio of Optical Transceivers. transceiver using two, 2-fiber, LC Duplex optical connectors each carrying 4-channels of 200G-PAM4.
