

New Zealand Digital Relay Protection Tester

Overview

The ART3V Relay Test System is ideally suited for testing G59/G99 protection, including loss of mains protection. Vector surge and df/dt (ROCOF) relays can be simply tested and timed, as well as other protection requiring one to three voltages. Discover relay testers and secondary injection systems in NZ from Electrotest Ltd. The Megger MRCT is a light weight, robust, portable unit used to perform demagnetization, ratio. T&R Test Equipment authorised distributors based in New Zealand. Get in touch with us today for more. The Kingsine KFA320 protection relay tester has been designed with a compact interior, similar in size to an iPad, and is powered by replaceable batteries. 8 kg and offers 4x300V and 6x20A outputs. Its maximum current can reach 60A, and the output power reaches 200VA/Phase. Whether you need to test an individual component or an entire scheme, the F6150SV can assess protection system performance for analog. Evaluate the protective relays in your power system to avoid costly damages and cascading faults with Care Labs's insightful relay coordination study in New Zealand.
