

New Zealand Waterproof Optical Cable Fault Locator

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small/Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped

Overview

The OPTVFL is a compact but powerful visual fault locator, designed to troubleshoot faults on fibre optic cables. Light generated by this unit will escape from sharp bends and breaks in jacketed or bare fibres, as well as poorly mated connectors. Small enough to easily fit inside an installers pocket or tool belt, it is the ideal tool to carry on site and has on hand for any emergency. Our products feature the long lifetime, stable structure and different functions available. It can also identify faults in fibre optic cables. All Megger EZ-THUMP models are compact and lightweight, simply-operated, battery and AC line operated, portable cable fault location systems. They are designed for quick, effective, accurate and safe fault locating operations to greatly reduce system customer outage minutes and at a significantly. Includes a 50mW/50km VFL Fiber Optic Visual Fault Locator Pen a LC, SC, ST and FC Coupler Adapters, Two Cleaners and 3 Short Patch Cords (Troubleshoot Kit Plus) Online at desertcartNew Zealand Import Duties and Taxes.
