Odn Optical Cable Line Engineering Design

Overview

This document provides guidance on optical distribution network (ODN) design for fiber-to-the-home (FTTH) deployments. It discusses ODN topology design including star, ring and bus configurations. Unlike active equipment, the ODN does not require electrical power. It is composed entirely of. This Technical Specification (TS) has been produced by ETSI Technical Committee Access, Terminals, Transmission and Multiplexing (ATTM). In the present document "shall", "shall not", "should", "should not", "may", "need not", "will", "will not", "can" and "cannot" are to be interpreted as described. With Huawei's core concept for ODN construction centering on full and dense coverage coupled with short and easy access, Huawei's ODN 3. In the earliest FTTH solution, ODN 1.
