

# Regulations for Sending Cable Trays for Inspection at Construction Sites

## Overview

This article provides a detailed guide on relevant regulations and precautions for professional reference. The use and installation of cable trays is covered by legally enforceable OSHA regulations in 29 CFR 1910. In addition, this document contains several references to provisions of the National Electric Code. Instrumentation cable trays are critical for organizing and protecting electrical and signal cables in industrial environments. This method was prepared in reference to scope of work as guideline for effective. This standard specifies the requirements for nonmetallic cable trays and associated fittings designed for use in accordance with the rules of the Canadian Electrical Code (CEC) Part 1, and the National Electrical Code® (NEC).
