

# Requirements for Cable Tray Height and Hanging Height

## Overview

Height Above Ground: Cable trays should ideally be installed at least 2.3 meters from the ceiling or any other obstructions. This publication is intended as a practical guide for the proper and safe\* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to si osure, overheating or. The International Electrotechnical Commission (IEC) provides detailed guidelines for cable tray systems under IEC 61537. Establishing partnerships. Is your cable tray system optimized for safety, dependability, space and cost savings?

Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and.
