

Russian Pluggable Optical Module NRZ

Overview

Amphenol has released the QEPT 4-TRX 200G NRZ, a 200Gbit per second high-speed optical pluggable transceiver module. HIGH PERFORMANCE UNDER EXTREME CONDITIONS, the Amphenol AOP 28Gbps extended temperature " Quad Embedded Pluggable Transceiver " is designed for highly challenging applications where both reliability and performance are critical. Capable of speeds up to 28Gbps at distances up to 70m for the full. While the industry-standard OSFP (Octal Small Form-Factor Pluggable) module has successfully enabled 400Gbps, 800Gbps, and 1.6Tbps optical pluggable modules, it is limited to 32 modules per Rack Unit (RU), typically requiring 2 RUs to achieve 102. Widely deployed in AI data centers, HPC networks, and enterprise core and distribution layers, QSFP28 maintains mechanical compatibility with QSFP+. The GIGALIGHT 100G QSFP28 pluggable optical transceiver modules support 100G Ethernet, InfiniBand EDR, 128GFC and OTN OTU4 data rates. This portfolio includes SR4/SWDM4/SR1.2/SR2 100m, PSM4/CWDM4/CLR4 2km, PSM4/CWDM4/CLR4/LR4/4WDM-10 10km, LR4 20km, ER4 Lite 30km/40km, ER4 40km, eER4 60km, ZR4.
