

Self-advancing Anchor Bolt Tail Sleeve

Overview

Wilson Anchor Sleeves and Contec Anchor Sleeves are high impact plastic parts used as an in-place form, to create a free area when setting anchor bolts for equipment. This opening allows the anchor bolt alignment to be adjusted. Trusted by engineers in a variety of industrial, commercial, and manufacturing fields, our anchor sleeves are the perfect rust- and rot-free bolt alignment solution. You can use these anchors as an alternative to wedge anchors in concrete near edges. Sleeve anchors are an anchoring solution made from steel and stainless steel for cracked and non-cracked concrete and in applications exposed to seismic loads. In addition, the optimum interaction. KT Sleeve Anchors 10 x 100mm - cardboard box - 50 pcs.
