

Senegal OLT Optical Line Terminal SFP

Overview

The S-OLT-GPON-4OLT-L3S is a high-performance 4 PON ports GPON OLT, supporting 512 ONUs with flexible 1U rack-mount deployment. It features 4 Gigabit RJ45 uplink ports & 2 SFP+ uplink ports, offering centralized network management via EMS, Web, Telnet, CLPON technologies, unlike Ethernet, are not P2P but one-to-many with two device types: ONU (Optical Network Unit)/ONT (Optical Network Terminal) and OLT (Optical Line Terminal). Both devices can be manufactured using the SFP form factor 1. The OLT provides an integrated access box for Passive. Explore our range of high-quality GPON, EPON, and XG (S)PON OLT products. Find the perfect Optical Line Terminal solutions for your network needs. Modern OLTs offer communication service providers (CSP) the ability to launch multigigabit services to tens of thousands of subscribers from a single location or just ten. robust fiber-to-the-home (FTTH) or small-scale fiber deployments. temperature, voltage, bias current, and optical power. PON is different than other optical network topologies in that it is a Point to Multi-Point (P2MP) topology.
