

Specifications of Explosion-proof and Corrosion-resistant Distribution Boxes

Overview

The enclosures are certified Ex d IIB+H2 and Ex tb as well as "explosion-proof". They are available in many sizes, a wide range of operating elements and monitoring functions can be integrated. 31 IEC 60079-0 IEC 60079-1 IEC 60079-7 IEC 60079-31 1. The enclosure is constructed from glass fiber reinforced unsaturated polyester resin molding or. The enclosure series EJB forms the optimal basis for the application-specific configuration of terminal boxes, control stations as well as control and distribution panels. They are available in many sizes, a wide range. Ex Industries (exindustries) is a global supplier of advanced hazardous area solutions, offering a wide portfolio of certified products including explosion proof electrical boxes, explosion proof junction boxes, explosion proof lighting, intrinsically safe barrier systems, explosion proof cables. Glass fibre reinforced polyester (GRP), used for manufacturing HTB1P series terminal boxes, was selected to provide maximum protection against corrosion-causing factors and UV radiation.
