

State Grid promotes energy internet enterprises

Overview

At the 2025 Global Energy Internet Conference held today, Zhang Zhigang, chairman of the State Grid Corporation, said in his keynote speech that China State Grid Corporation is guided by the new “four revolutions, one cooperation” energy security strategy, earnestly. At the 2025 Global Energy Internet Conference held today, Zhang Zhigang, chairman of the State Grid Corporation, said in his keynote speech that China State Grid Corporation is guided by the new “four revolutions, one cooperation” energy security strategy, earnestly. At this year's "Two Sessions" of State Grid Corporation of China, Chairman Kou Wei made a profound analysis of the current situation facing the company, systematically elaborated on the great significance of building a world-class energy Internet enterprise with "three types and two networks". State Grid remains at the forefront of China's energy transformation initiatives by utilising the smart grid as a central platform. The company advances consumption of clean energy and promotes electric power by innovating in environmental. This article studies the priorities of grid companies for the development of the energy Internet industry from the three major aspects of the external environment, internal capabilities and central corporate responsibility, and according to six dimensions of market potential, market structure.
