

Sudan Optical Amplifier SFP

Overview

The JS-SM5510-A2C SFP+ transceivers are high performance, cost effective modules supporting data rate of 10Gbps and 120km transmission distance with SMF. The transceiver consists of three sections: a Cooled EML laser transmitter, a APD photodiode integrated with a trans-impedance. Cisco SFP-10G-ZR100 10G SFP+ mode transceiver with DOM support. Fully compatible with Cisco switches/routers for data center and metro networks. 10GBASE SFP+ Modules Features and Benefits: ● Max. 8W The world first plug and play SFP+ -EDFA, FOA is a full-functioning EDFA module with control circuitry packaged inside. Due to the small size and easy installation, the FOA is designed for. Do you also provide customisation in the market study?

Yes, we provide customisation as per your requirements. To learn more, feel free to contact us on sales@6wresearch. Sumitomo Electric had developed the 300pin, X2 and XFP as 10Gbit/s optical transceivers. This paper. andards-based devices.
