

Trough-type fireproof and corrosion-resistant cable trays

Overview

Fireproof cable tray trough type has anti-corrosion performance and can protect cables from damage in corrosive environments. This characteristic makes it widely used in highly corrosive places such as chemical plants and electroplating plants.

Carbon Steel Construction: Durable and sturdy. Founded in 1981, with 40+ years of deep cultivation in the power equipment. Cablofil cable tray is the preferred choice for the cable containment of low and high voltage electric cables where fire resistance is crucial - this includes cable basket tray systems for Prysmian FP (FP400 and FP600) and Draka Firetuf type cables. Cablofil fire resistant and fire proof cable. The demand for flame retardant and fire resistant trough cable trays is rising. This growth is driven by stricter safety regulations and a global push for more resilient industrial infrastructure.
