

UAE Utility Tunnel Temperature Sensing Optical Cable Brand

Overview

Huawei OptiX Sensing offers optical fiber sensing solutions for various industries such as oil and gas, transportation, electric power, and government. It can be used for detecting pipelines, utility tunnels, tracks, fences, water areas, and gas. Leveraging the distributed optical fiber vibration. Integrated Distributed Sensing means Distributed Temperature Sensing (DTS), Distributed Acoustic Sensing (DAS), and Distributed Vibration Sensing (DVS) performed in a single fiber optic sensor cable with dedicated fibers for each technology. These sensor cables can stretch over lengths of up to 50. Gcabling, as an expert in the fiber cable manufacturing industry, has specially listed 7 best UAE fiber optic cable manufacturers to help you find the best company manufacturing optical fibre cables.
