

Ultra-thin size small household electrical distribution box

Overview

Explore low profile enclosures designed for wall-mounted or shallow-depth installs where space is tight. Ideal for control stations, compact automation, security systems, and surface-mount wiring. The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action including calculating carbon footprints, setting reduction targets, implementing reductions, financing climate projects and communicating transparently to continuously. Thin electrical boxes, known as low voltage or low profile boxes, are vital for both homeowners and electricians. These boxes are crafted to conserve space and sustain a minimalistic and discreet look, making them perfect for tight areas where standard, more cumbersome junction boxes cannot be. We specialize in creating custom NEMA enclosures tailored to your exact needs. Our small distribution boxes in the type 10 and type 11 series, in particular, offer a large range of options for different combinations due to their modular design. With 0,5m load H07 RN-F 3G2,5mm². They are typically equipped with three-pole outputs such as Schuko, Powercon, True1, or CEE 3P, and can be.
